Cherry Darrington Subscribed and sworn to before me this 12th day of July 1979. Kay T. Powell Notary Public

My Residence is Richfield, Sevier County, Utah My Commission Expires December 27, 1979.

underground uranium mining on Sections 16 & 21, Township 35 South, Range 11 East, Garfield County, Utah. The name of the mine is the Lucky Strike / Tony M. Mine and the person representing the company in this matter is Mr. R. B. Sewell, Manager of Operations, Plateau Resources Ltd., 772 Horizon Drive, Grand Junction, Colorado 81501.

Plateau Resources has fulfilled obligations under the Mined Land Reclamation Act of 1975 (Section 40-8, U.C.A., 1953 as amended) and will employ the following reclamation techniques on 24 acres which comprise the land affected. Legal access to the land affected is by State lease and unpatented lode mining claims.

DURING OPERATIONS:

1. Mine development entry will commence on the cliff wall adjacent to previous mine openings. Mining and maintenance methods will be carried out in a safe and orderly manner. Disturbed materials will be waste and they will be allowed to seek their natural angles of repose. Waste rock will be used to maintain a low wide area for surface operation use.

2. Access roads in present use will be used for the mining project. The roads will have approximately 11 percent grades.

3. Site preparation will be completed by grading existing waste rock for level entry. No removal of trees or brush is necessary.

4. Any upper horizon material encountered will be stockpiled in an independent area for final reclamation.

5. Plant species for revegetation will be determined from test plot data.

6. A temporary camp for employees only, will be maintained at the site. It will be removed when the Ticaboo site is ready in 1980.

AFTER OPERATIONS:

1. Portal and ventilation shafts will be sealed to prevent unauthorized or accidental entry.

2. Waste rock dumps will be contoured to a naturally draining configuration.

3. Extraneous debris, unusable buildings, and scrap metal and wood will be removed from the location or buried.

4. All disturbed surfaces will be regraded, stockpiled soil added, and seeded.

5. Maintenance procedures for revegetation will be accomplished as necessary. The sites will be checked at least biannually by Plateau Resources personnel who will immediately

augment any necessary steps in revegetation erosion control. Critical sites and those responding as project will be checked often.

Reclamation performance surety will be posted prior to final approval of the reclamation plan.

Any person or agency aggrieved by this tentative decision is hereby requested to submit written protest within 30 days from July 5, 1979, to the Division of Oil, Gas, and Mining, 1588 West North Temple, Salt Lake City, Utah 84116, setting forth factual reasons for his or her complaint, and thereafter, at a time and place heretofore established, appear before the Board of Oil, Gas, and Mining, to show cause, if any there be, why this plan should not be approved.

Dated this 3rd day of July.
